Education

Narsimha Reddy Engineering College — CGPA: 7.9

B.Tech in Computer Science (AI & ML)

Jun. 2024 – Apr 2028

Hyderabad, Telangana

AAKASH INSTITUTE

Intermediate: Mathematics, Physics, Chemistry

Jun. 2022 – May 2024

Vijayawada, Andhra Pradesh

Sri Chaitanya International Olympiad School

10th Grade, CBSE

May 2021 – Jul 2022

Vijayawada, Andhra Pradesh

Skills

Languages: Python, Java, C, C++, HTML, CSS, JavaScript, SQL, MongoDB, PHP

Tools: VS Code, PyCharm, Postman, Google Colab, Git, GitHub, n8n

Operating Systems: macOS, Windows

Libraries/Frameworks: React, Node.js, OpenCV, Numpy, Pandas

Project Management Tools: Freedcamp, Mattermost

Soft Skills: Leadership, Team Building, Time Management, Adaptability, Communication, Creativity, Work Ethic

Additional Skills: MS Office, ChatGPT (Prompt Engineering), Documentation, Typing Speed 65 WPM

Relevant Coursework

- Data Structures
- Database Management
- System Design
- API Developer
- Algorithms Analysis
- Neural Network
- Flutter

Internships

Shaaka

Present

- Worked as a Software Practitioner Intern at Shaaka, collaborating with private sector clients to solve real-world problems using Python, PHP, HTML, CSS, SQL, and Java.
- Mentored clients and contributed to technology-driven solutions supporting Shaaka's mission of empowering farmers, women, and promoting a hunger-free India.

Organic Urban Reap Website Management and Website Development

Present

- Worked as a Website Management Development Intern at Organic Urban Reap, building and maintaining responsive full-stack web applications using modern web technologies.
- Developed and automated AI-driven workflows using n8n, improving operational efficiency and streamlining digital processes.

Projects

Student Assistant Website | Python, HTML, CSS, JavaScript, MySQL

Feb 2026

- Developed a web-based student assistant platform to help students manage schedules, assignments, and study resources effectively.
- Implemented features for task reminders, resource sharing, and academic tracking to enhance productivity.

Smart Travel Guard | Python, HTML, CSS, JavaScript, Node.JS, MongoDB

Aug 2025

- It's a smart travel safety system that offers real-time monitoring, emergency alerts, live location sharing, and assistance to help travelers stay secure, confident, and stress-free throughout their journey.
- Integrated multilingual support for some Indian languages, offline data collection with online sync, and real-time analytics dashboard.

Prescripto | *HTML, CSS, JavaScript, PHP, MySQL, Node.js* **Sep 2025**

- Developed a smart healthcare assistant web platform for appointment booking, health records management, and patient support.
- Integrated multilingual support and responsive design for accessibility across devices.

Online Voting System | *HTML, CSS, JavaScript, PHP, MySQL* **Oct 2024**

- Developed a secure web-based voting platform allowing users to register, log in, and cast votes digitally.
- Implemented authentication and database management to ensure fair and reliable elections.

Certifications and Achievements

Ideathon 2026 1st Winner **Oct 2025**

Stanley College of Engineering and Technology

- * LogSagittarius OS is a next-generation operating system concept designed to integrate intelligent automation, secure infrastructure, and developer-friendly tools, enabling AI-driven services, efficient data management, and scalable digital solutions.

CodeStorm 2026 2nd Winner **Jan 2025**

Narsimha Reddy Engineering College

- * Developed an AI-powered Intelligent Learning Companion for Students integrating AI agents, Gmail and Telegram automation, and a RAG-based chatbot using PHP and MySQL, providing personalized assistance and improving the overall student learning experience.

CodeSprint 2025 2nd Winner **Oct 2025**

Narsimha Reddy Engineering College

- * Developed an AI/ML-based Environmental Education web platform during a hackathon, collaborating with a team to create a technology-driven solution addressing real-world environmental awareness challenges.

Full Stack Web Development – Udemy **Feb 2025**

Instructor: Dr. Angela Yu

Infosys Springboard **Jul 2025**

It's a free, comprehensive digital learning platform by Infosys.

- * Artificial Intelligence (overview and applications)
- * Data Science (introduction, applications, implementation in business problems)
- * OpenAI GPT-3 for Developers
- * Time Management

LinkedIn Learning **Aug 2025**

Microsoft Supported

- * Generative AI
- * Reinforcement Learning: Essentials

CodeChef Global Rank: 63181 **Present**

Solved problems on LeetCode, CodeForces, CodeChef, InterviewBit and attended live contests.

AWS Academy Graduate – Cloud Foundations **Aug 2023**

C, DSA, C++, Java, Python, Linux (Basics), MS-Office

Completed training from top Udemy instructors.
